Defence service, Airforce service is essential to any nation.

Effecient and transportation service.

Air transport is an important enabler to achieving economic growth and development. Air transport facilitates integration into the global economy and provides vital connectivity on a national, regional, and international scale. It also generates trade, promotes tourism, and creates employment opportunities. The World Bank has financed aviation related projects for over thirty years. Today, the WBEC remains actively engaged in every region on projects related to air transport policy and regulation, safety, infrastructure rehabilitation, institutional strengthening, and capacity building.

Operational work through projects and technical assistance.

It is the fastest mode of transpport and therefore suitable for carriage of goods over a long distance.

Air transport is the activity that allows the transfer of people, merchandise and mail in aircraft. Therefore, we are talking about the type of transport that travels by air and is present in airports.

The movement of passengers and cargo by aircraft such as airplanes and helicopters

Planes, jets, rockets, helicopters, and drones are all examples of air transport. Recreational usage of hot air balloons, blimps, gliders, hang gliders and other types of air travel is an option

The exhilaration of taking flight for the first time is a sentiment shared by countless individuals. How does it feel to fly? It's crazy. All my life I was waiting for that one moment when I would have the controls in a cockpit.

Air transport provides comfortable, efficient and quick transport services. It is regarded as best mode of transport for transporting perishable goods.
